Our HUBBA Kick-off this year was a complete success. It was a great opportunity for our new members to meet the new Executive Board and learn about the networking and leadership opportunities with HUBBA. Present at the event was the lovely Mrs. Faye, our Faculty Advisor, and Anthony Gamblin, the President of National Asso-

ciation of Black Accountants (NABA). HUBBA's past president, for the 2009-2010 school year, Jessica Smith, shared her experience and some advice with our new members. Jessica Smith is now currently working for EY as an Advisory Associate. We appreciate her coming out to the event. It looks like it's going to be another great year for HUBBA.

“Elements of Success” which was held in the San Francisco office. This program helped better prepare members for making the best of career fairs, provided help with resume building, gave interview tips and talked about pres-

entations. EY has many great opportunities for undergraduates such as leadership conferences, internships as well as the “Discover Tax Program.” They are also the employers of our lovely Jessica Smith. (HUBBA’s former President)
